

November 2024

Dying Right NC

Newsletter

OUR WORK CONTINUES:

Dying Right NC is a nonpartisan nonprofit committed to our work: advocacy for end-of-life options. This work comes in the form of education on existing options like palliative care and hospice and advance directives and medical aid in dying and access to experimental treatments and options for at-home care....the list goes on. Some of our work intersects with existing laws and lack thereof, with our focus always on options for North Carolinians. The 2024 election season is over and a new legislative session will begin soon -- however you feel about the election results, we remain committed to our mission and will continue collaborating with elected officials where our work and theirs overlaps.

In our last email, we invited you to tell us what you think about some topics related to end-of-life and MAID. We were thrilled with the participation -- thank you to everyone who spent their time sharing with us! This was our first survey like this but it won't be our last. Our supporters are the reason we can continue to do what we do and we strive to represent you in our advocacy and educational endeavors.

IN DRNC NEWS:

Our Executive Director attended the biennial conference for the WFRTDS
